

Welcome to The Nest

SELF-GUIDED TOUR MAP

MAIN ENTRANCE

- We are the only shelter in the area to provide **mail services**, and will serve as a mailing address for roughly 400-500 people. For many, this is where the road to stability begins.
- We offer **free laundry** for anyone to use, with supplies included.
- With **limited private offices** (only the director has one), staff remain visible and accessible, building trust through everyday interaction.

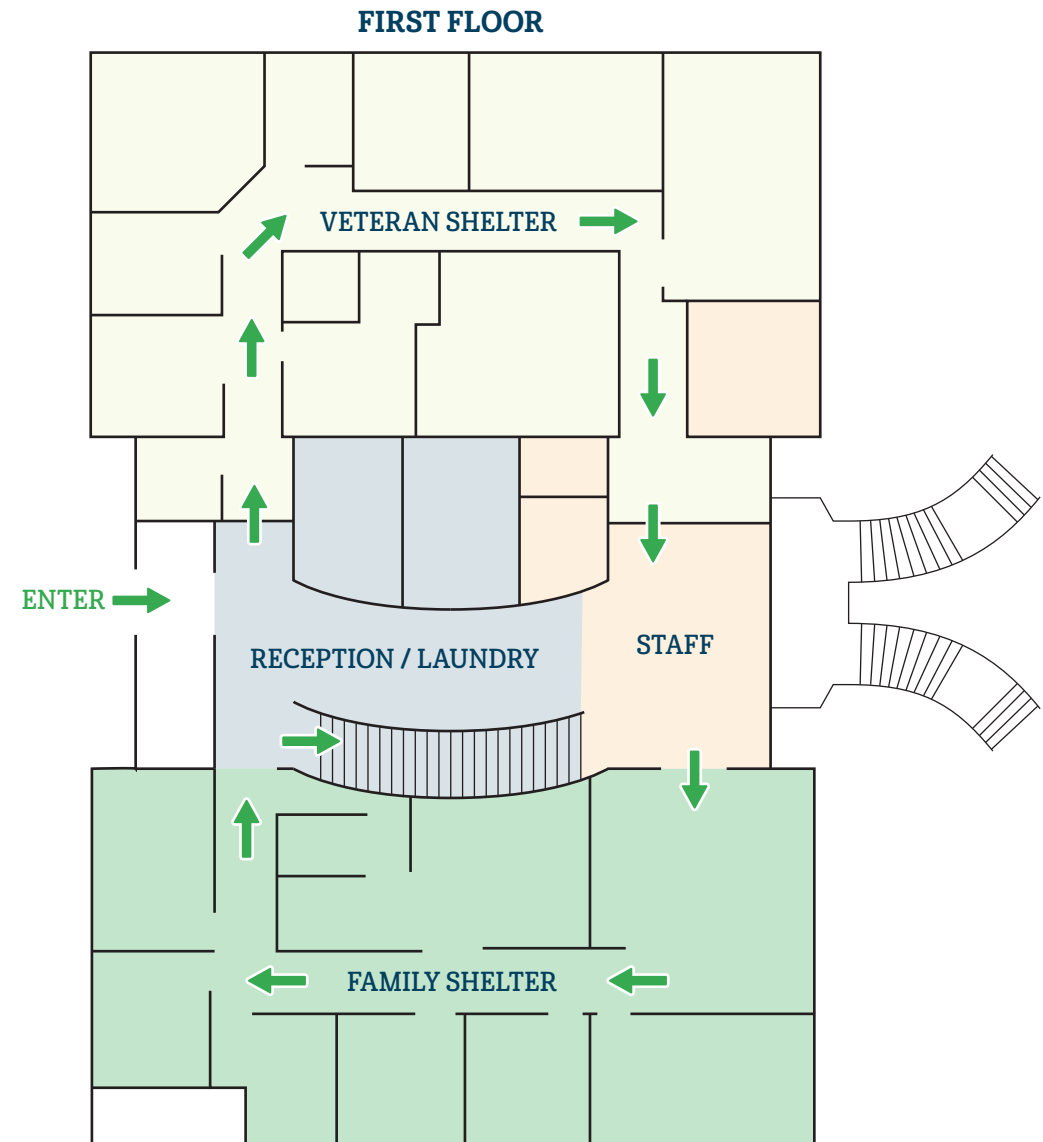

FAMILY AREA

- The Family Area's **rooms** can accommodate anywhere from 6-17 families, depending on size.
- For the first time, the family bathroom includes a **bathtub** — making care for babies and toddlers easier and more accessible.
- A shared **Family Lounge** includes TVs, games, and a space to connect.
- An accessible **park** across the street (a first for us) will give kids a safe place to play outside.

VETERANS AREA

- Veterans will have access to a **dedicated private space** for quiet time and reflection.
- Veterans also have access to their own **kitchen and lounge** space.

Every detail of The Nest was designed to expand perceptions of what a shelter can be. **Tall ceilings**, **abundant natural light**, and **updated finishes** create a space that feels dignified, open, calm, and welcoming — because when people feel better, they do better.

DOWNSTAIRS DAY CENTER

- The spacious **Day Center** will be outfitted with a computer lab and access to phones.
- A new **drinking fountain** has a bottle filter — a seemingly small detail that makes a big difference.
- A new **private, ADA shower** was added to allow folks who stay in encampments to access a free shower anytime.
- A **grab-and-go pantry** provides flexible access to food for those who may miss scheduled meals.
